

WyoLotto Winning Numbers Widgets

The Wyoming Lottery now provides embeddable widgets to dynamically display winning Mega Millions® and Powerball® winning numbers on your website.

The WyoLotto Widgets can be a resource for people to visit your website on draw nights. Draws are held weekly and numbers are electronically published around 9:15pm on Tuesday and Friday nights for Mega Millions, and on Wednesday and Saturday nights for Powerball.

These iFrame widgets are easy to place on your website by copying the code below and pasting into your website. You can find iFrame best practices at w3schools.com.
